

James & Wells enquiry meeting

Intangible assets are the most valuable asset of a business. A first meeting with us to discuss their capture as intellectual property is critical for you to understand how best to exploit these assets.

At the meeting we need to understand what assets you have, any special circumstances and what you hope to achieve.

After our meeting (usually within 2–5 working days) we will provide you with a tailored plan that outlines how you can best achieve your aims. This will include identifying relevant IP issues and what is needed to address them along with associated procedures, costs, risks and benefits. You can then make an informed decision on how you should best proceed.

The investment for this meeting is \$500 + GST and will take 45–60 minutes.

All our attorneys are experts in advising on exploiting IP and can advise on the application processes, although any preparation you can do before the meeting will of course help. Typical desirable information is listed below.

Reading our [Guide to the Protection of Innovation & Goodwill](#) beforehand is very useful.

- How do you want to commercialise your IP?
- Do you want to...
